

Trigger·Flex[®] Pro

SURGI-MAX[®] BONE BLADE

Surgical Synergy that Redefines Endoscopic Excellence

Schedule Your Training Today

MULTI- PORTAL

Bridging the Gap between Uniportal and Biportal Endoscopy

Surgical Benefits

- Multiple working ports enhance flexibility and accessibility
- Minimizes tissue and multifidus muscle dissection
- Enables creation of a surgical cavity from the primary port
- Allows docking a cannula on bone to reduce fatigue
- Maintains irrigation flow with an independent irrigation port
- Reduces irrigation volume and avoids relying on the working port for fluid management
- Ideal for wide or multi-level decompression
- Potential to reduce surgical time

SHAPING THE FUTURE OF SPINE SURGERY

WHY ENDOSCOPIC???

- Proven benefits in complex cases, including lumbar revision surgeries
- Backed by cutting-edge research and real-world surgeon experience
- Enhanced patient outcomes with reduced recovery times

Combat the learning curve by joining a community dedicated to surgical excellence and innovation.
